CAST IRON

THE TRUE CLASSICS LAST FOREVER

IRON WAS NEVER SO STYLISH

BLB IS RENOWNED IN THE WORLD OF METALLURGICAL INDUSTRY, SPECIALIZING IN THE PRODUCTION OF VITREOUS TITANIUM ENAMEL CAST IRON BATHTUBS.

FOUNDED:
1966

HEADQUARTERS AND SHOWROOM:
ÁGUEDA, PORTUGAL

PRODUCTION CAPACITY:
200.000 PIECES/YEAR

MISSION AND VALUES

BLB's mission is to develop a product and a sustainable working method enabling it to satisfy the future generations of workers, clients, suppliers, shareholders and community where it is "active" since 1966 in order to continuously become bigger, stronger.

TECHNICALLY SUPERIOR

In a fast changing industry and global economy BLB recognises the importance of Research & Development in securing the future of the Company and, as such, it ensures that production processes are efficient, making the products technically superior with a natural advantage in the market place.

The raw materials used in manufacturing BLB products are provided by highly qualified suppliers capable of meeting the necessary demands in terms of quality. Coping with increased environmental regulations and directives is not a problem for this innovator. BLB actually manufacture a product which is 100% recyclable!

The Company has also been certified with both ISO 9001 Quality Certification and ISO 14001 Environment Certification. However, focus is not on awards but on the satisfaction of its clients and end users.

That is an award in itself.

BLB's first certification according to ISO quality standards dates back from 1998 and is at present certified according to ISO 9001:2008.

BLB's global quality management system is maintained and improved having as goal to be focused on producing and supplying high standard quality products and providing maximum customer satisfaction and adopting guidelines of continuous improvement.

BLB INTEGRATES THE QUALITY PRINCIPLES IN THE COMPANY POLICY, IN ORDER TO ACHIEVE EFFICIENT PROCESSES ON ORGANISATION, AND TO BE SUPPORTED BY HIGH SKILLED AND TRAINED TECHNICAL AND PRODUCTION TEAMS AS WELL AS TO SETTLE METICULOUS CONTROLS OF RAW MATERIALS, PROCESSES AND PRODUCTS.

All products manufactured by BLB fulfil every technical requirements established by the wide variety of markets where they are sold and for specific markets they are fully accredited by product certifications such as N Mark and NF Mark.

Additionally all BLB products comply with the CE marking requirements as established in the relevant EN standards for Vitreous Titanium Enamel Cast Iron products.

BLB has an environment management system certified according to ISO 14001 since 2004. The principle of pollution reduction and minimization of environmental impacts is consolidated in the company policy.

The best available techniques are adopted in manufacturing processes with the intention that gas and liquid emissions and waste production are minimized.

Establishing ambitious goals to reduce consumption of energy and material resources is another commitment to environment protection.

During product development the environmental aspects are also considered with the aim of reducing impacts. In this process is considered the optimization of resource consumption (packaging materials, raw-materials, and for example water consumption by users) and production of waste from packaging materials at the construction site.

MATERIAL EXCELLENCE

PROVEN RESISTANCE

ALWAYS PROMOTING A BETTER HYGIENIC LEVEL OF WORLD-WIDE SOCIETIES WITH A MINIMAL IMPACT TO THE ENVIRONMENT.

ALL OUR CAST IRON BATHTUBS ARE MADE OF TITANIUM ENAMEL, AN ELITE MATERIAL WITH THE MAXIMUM DEGREE OF ABRASION, SCRATCH AND IMPACT RESISTANCE WITH NO NEGATIVE IMPACTS ON THE ENVIRONMENT.

FOR REASONS OF QUALITY CONTROL, WE ALWAYS WORK DIRECTLY WITH THE WORLD'S LEADING SUPPLIERS OF ENAMELS AND STEEL ALLOWING US TO HAVE A DEDICATED TEAM OF ENGINEERS, CHEMISTS, DESIGNERS, TECHNICIANS AND MANUFACTURING OPERATORS CONSTANTLY WORKING TO CREATE SYNERGIES IN ORDER TO FORMULATE SPECIALIZED ENAMELS AND STEEL TO PROVIDE OUR CUSTOMERS THE BEST SOLUTIONS IN THE WORLD.

CHEMICALS AND STAINING AGENTS

<i>SULFURIC ACID</i>	<i>ACETIC ACID</i>	<i>ETHANOL METHYLENE BLUE</i>	<i>SODIUM HYPOCHLORITE</i>	<i>SODIUM HYDROXIDE</i>	<i>BOILING WATER</i>	<i>BOILING CITRIC ACID</i>	<i>COLD CITRIC ACID</i>
ISO 28706-1	EN 14516	EN 14516	EN 14516	EN 14516	EN 14516	ISO 28706-2	ISO 28706-1

<i>TEMPERATURE CHANGES</i>	<i>SCRATCHES AND ABRASION</i>	<i>DIMENSIONAL STRICTNESS</i>	<i>BACTERIA AND FUNGOS</i>	<i>STABILITY OF BOTTOM</i>
EN 14516 Maximum efficiency	EN 14688	EN 14516 / EN 232	Maximum efficiency	EN 14516

The main goal of green building/ sustainable building is to use environmentally responsible/friendly and resource-efficient processes throughout a building's life-cycle with the intention that the overall impact on human health and the natural environment is reduced.

In these processes, design, maintenance and demolition have an important role and within this philosophy the use of vitreous enamelled steel products contribute significantly to the reduction of these environmental impacts: waste production, pollution, environmental degradation and resources. Consumption is reduced because vitreous enamelled steel Bathtubs and Shower trays are 100% recyclable and in this way allow sustainable development.
